About US

The One Real Estate is a premium real estate brokerage based in Qatar dedicated to delivering exceptional property solutions for homeowners investors, businesses and international clients

We specialize in residential commercial and investment properties while maintaining the highest standards of professionalism transparency and customer satisfaction

CEO's Message

Mr. Mohammed Al-Turk.

Founder & CEO

Our Vision Begins with Trust

When we founded The One Real Estate our vision was clear to build a real estate company whose value is measured not by the number of deals it closes but by the real value it delivers to its clients and the trust it builds with them over the long term

My experience in the world of business and working across multiple markets has given me a deep understanding of the importance of studying the market reading opportunities and most importantly understanding the client's true needs From this we realized that success in the real estate sector depends not only on selling or buying property but on providing the right advice and building a long-term relationship based on trust and transparency

Today, the State of Qatar continues to solidify its position as one of the region's most promising real estate markets offering diverse investment opportunities, distinctive projects and an attractive economic environment for local and international investors Amid this rapid development, The One Real Estate steps in as a trusted real estate partner whose role is not limited to offering properties but extends to understanding client needs evaluating opportunities and providing professional advice that helps clients make well-informed decisions aligned with their goals and aspirations

Our ambition is not merely to be a company that sells real estate but to build trust and create sustainable value, setting a new standard of excellence in the real estate sector to become the first choice in Qatar and a name trusted in international markets

The One Real Estate... Experience that guides you, trust that unites us

Vision & Mission

Our Vision

Our vision is to establish The One Real Estate as the world's leading real estate company recognized globally for excellence, innovation, integrity, and exceptional client experiences. We aspire to set new industry benchmarks, create lasting value for our clients and partners, and become the first choice for real estate services across international markets.
